### Impact of PE and sport premium on English Martyrs' RC Primary School

PE has improved greatly at English Martyrs' since having the PE and Sport Premium. We now have access to ongoing Continuing Professional Development from LPESN which enables all teachers to deliver high quality, targeted and structured lessons to every child here at English Martyrs' whilst maintain the sustainability of the provision. The children have access to a wide range of resources and skilled teachers who instil a love of sport and activity from a young age. The PE lessons are planned for each year group to ensure that they progress and learn skills appropriate to their age and ability.

The Sport Premium money has enabled us to offer more sporting opportunities and hence, sport participation in clubs has increased in recent years. As a school we run clubs after school and also offer physical activity at lunchtimes. Our aim is to have each child in the school participate in at least two hours of physical activity/education every week and also to make extra physical education available to every child who wants it through sports clubs and active playtime sessions.

The difference the PE and Sport Premium funding has had on the pupils highly visible in the number of clubs offered, the numbers attending clubs and also in the children's achievements in competitive sport.
